WALLET OUT OF SYNC

- Your wallet will then open up but will be out of sync.
- **PLEASE CLOSE THE WALLET AT THIS STEP BEFORE YOU PROCEED**

USERS

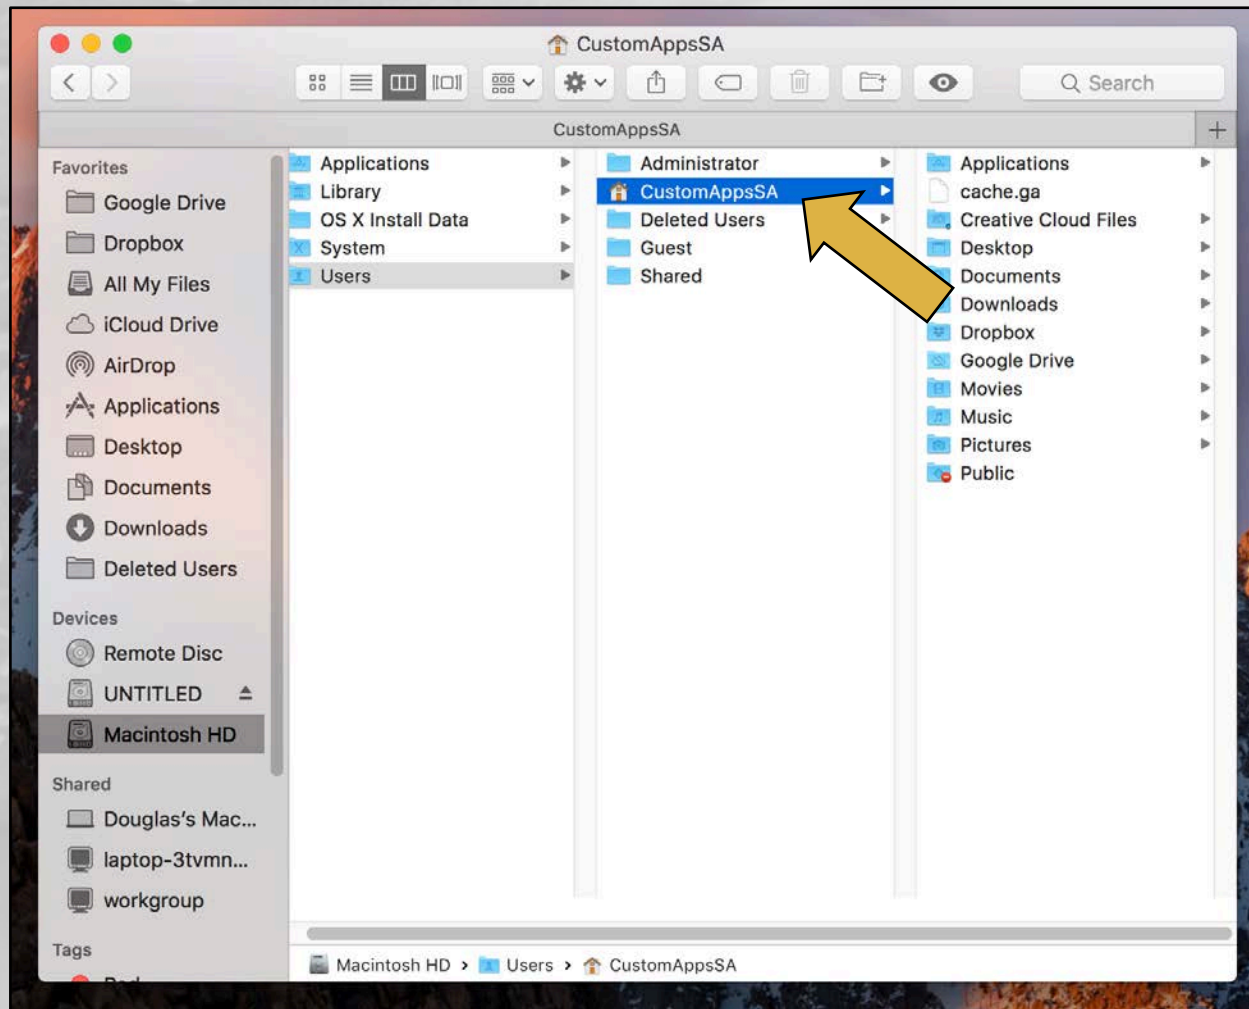

- Go to Users on your MAC

USERS

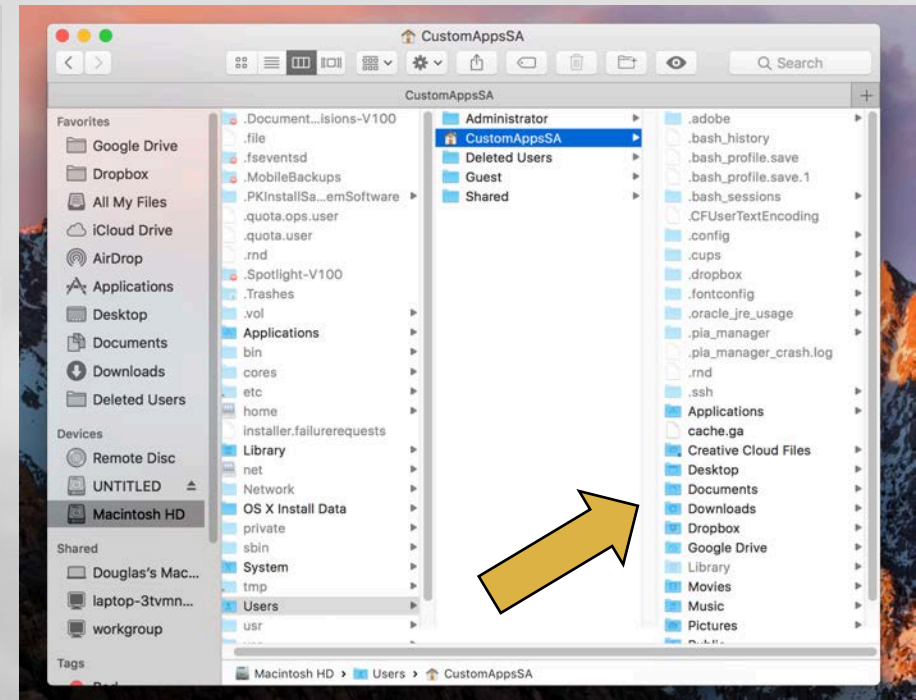

- Click on your current MAC user profile. (in this case CustomAppsSA for me)

USERS

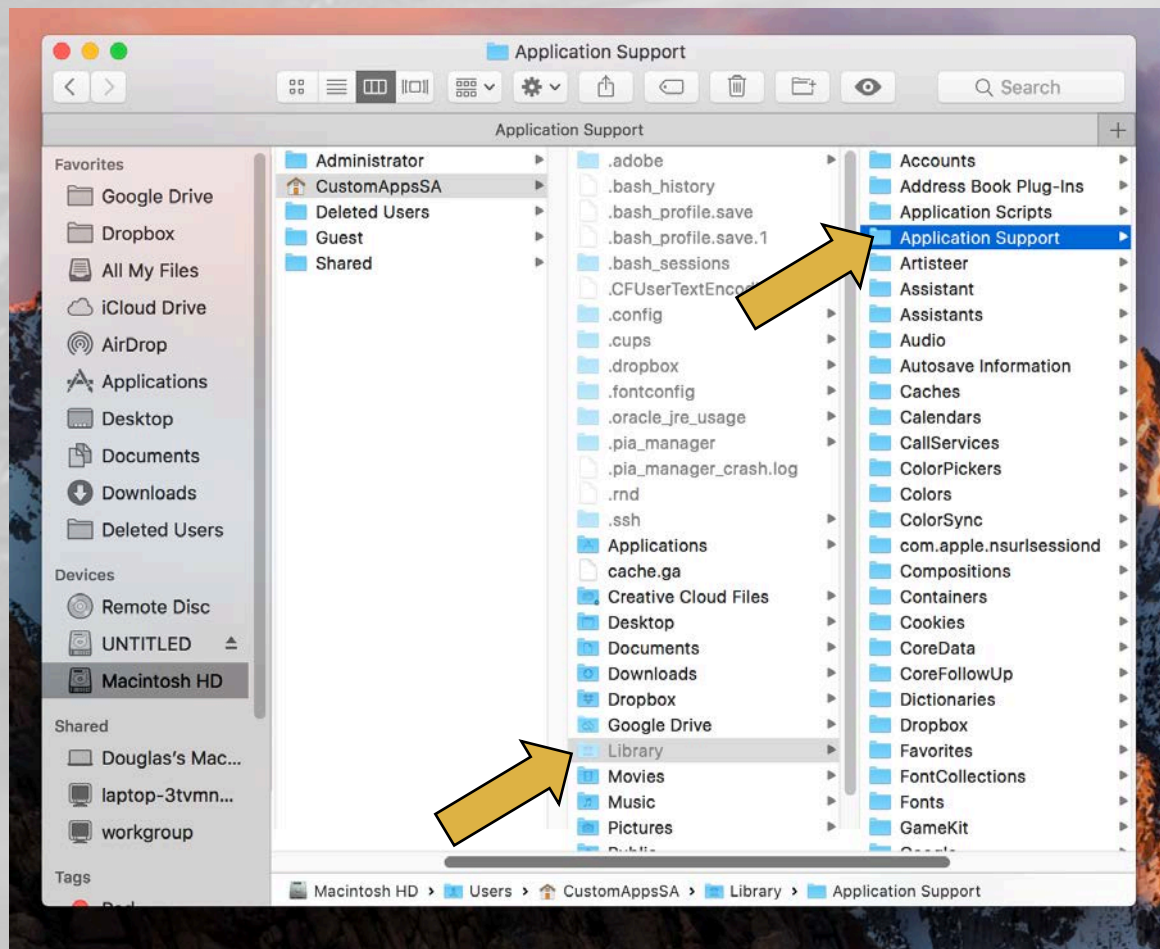

- Once you select your User the Press and Hold Down SHIFT,CMD & . See image below for keys to press on keyboard.
- You will then be able to view all your system hidden files

HIDDEN FILES

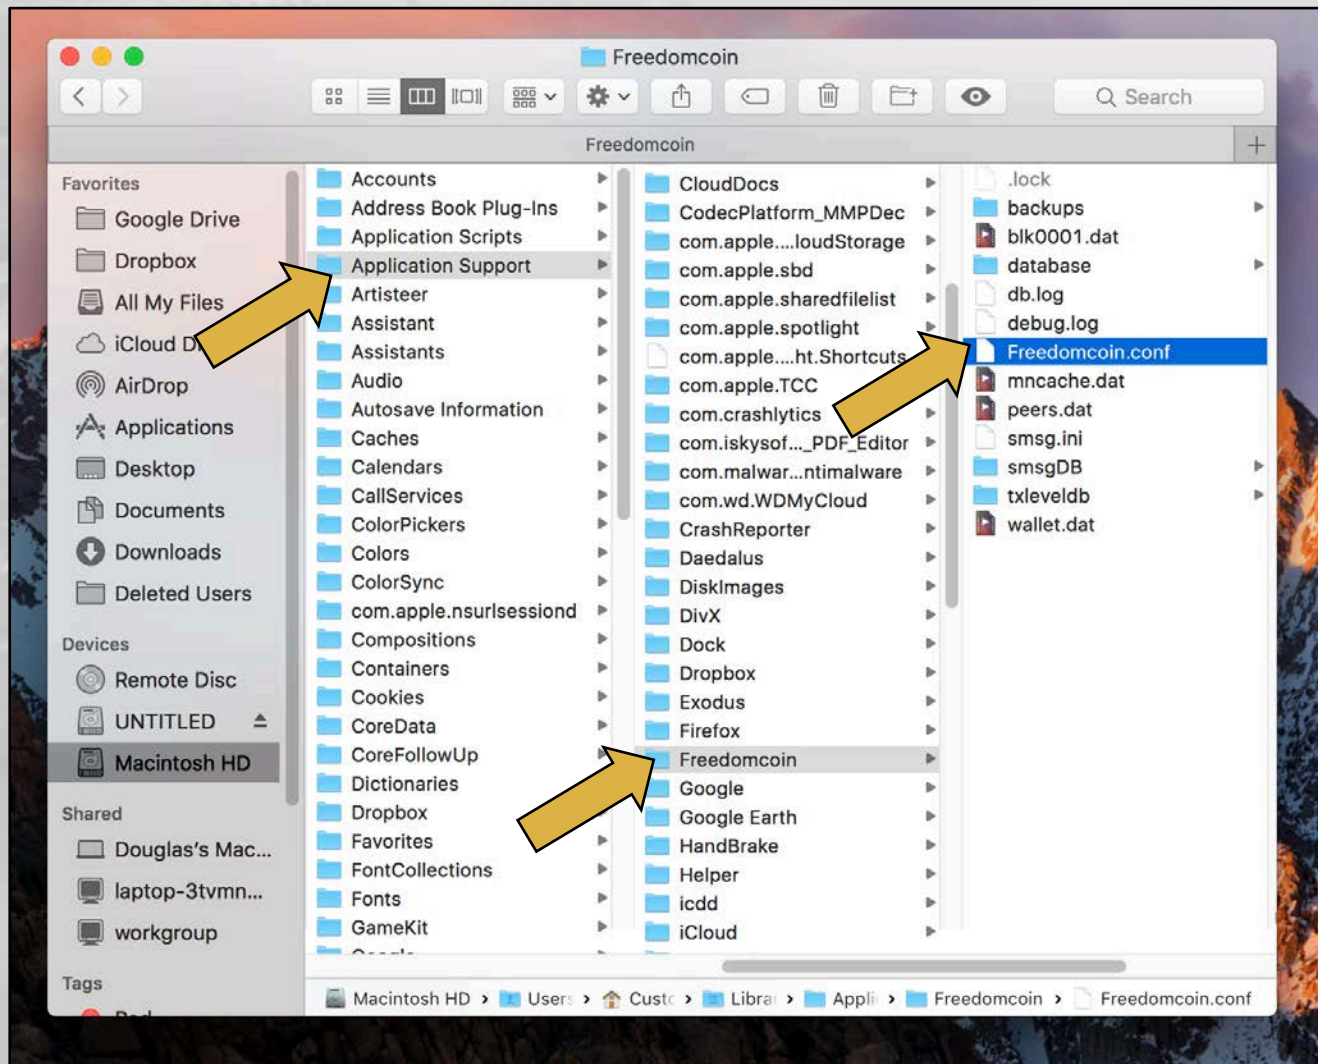

- Within the hidden files, there is a “library folder”. Click on the folder.
- Then click on the Application Support folder within the Library folder.

FREEDOMCOIN FOLDER

- Within the Application Support folder there is a Freedomcoin folder.
- Within the Freedomcoin folder, there is a Freedomcoin.conf file. Open that file

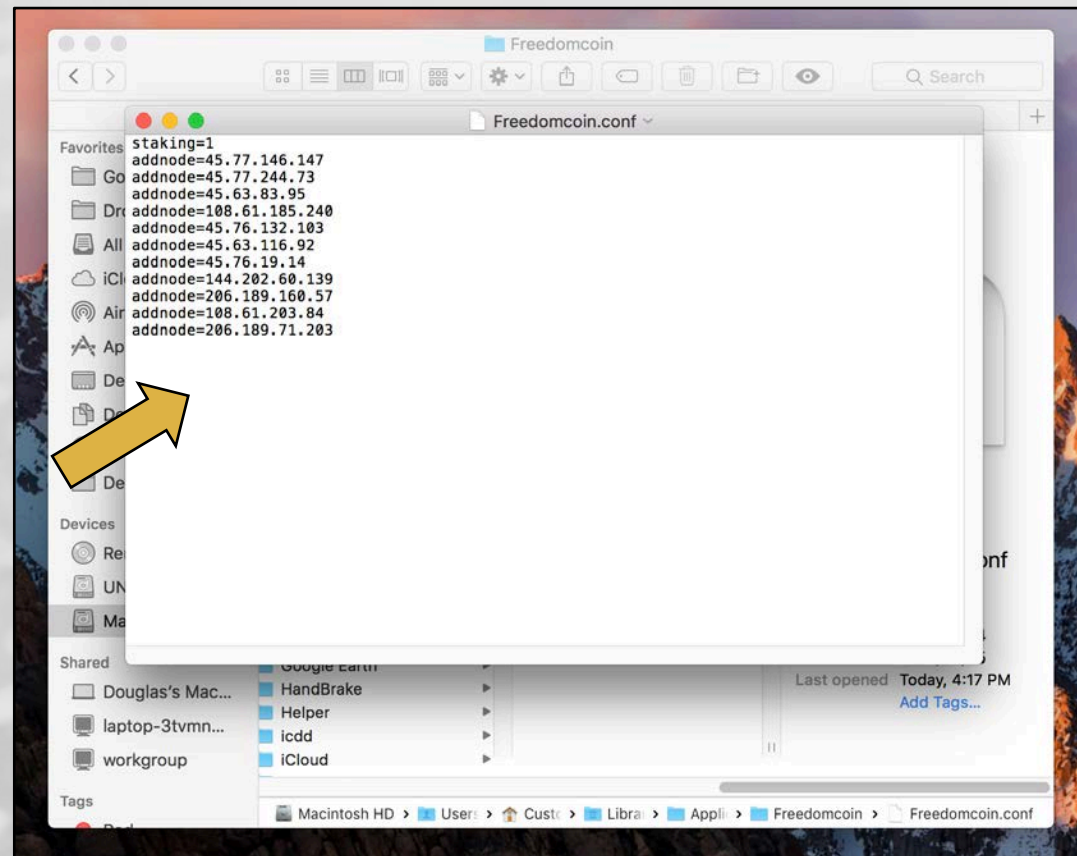

FREEDOMCOIN WALLET SYNC

- Open the file and paste the following:

```
staking=1  
addnode=45.77.146.147  
addnode=45.77.244.73  
addnode=45.63.83.95  
addnode=108.61.185.240  
addnode=45.76.132.103  
addnode=45.63.116.92  
addnode=45.76.19.14  
addnode=144.202.60.139  
addnode=206.189.160.57  
addnode=108.61.203.84  
addnode=206.189.71.203
```

- Save the file and close.

FREEDOMCOIN WALLET SYNC

- Once you have completed the steps, your wallet should be synced to the blockchain and ready for use.
